Elvicon CCTV SYSTEM

وزارة الداخلية
Ministry of Interior
دولة قطر • State of Qatar

Elvicon Security Systems is an approved and authorized CCTV system contractor by Qatar Ministry of Interior- Security Systems Department (MOI SSD) to import, supply, install, test & commission and maintain security systems.

Elvicon Security Systems is well equipped with the capability to access world renowned brands for any kind of customer requirement. With years of experience in providing security solutions, we are fully committed to provide end-to-end service to our clients from planning, design and installation, T&C to after sales service and maintenance. We are authorized by MOI-SSD to do following activities...

Installation Operation
and Maintenance of
CCTV System

Trading of Security
System Cameras &
Equipment

Import of Security
Surveillance System
Cameras & Devices

HIKVISION

AXIS
COMMUNICATIONS

Honeywell

BOSCH

STRUCTURED CABLING SYSTEM

Elvicon Security Systems have capability of designing the entire network infrastructure, taking into account the installation requirements in terms of functionality and performance. Special attention is paid to cross-platform integration, as a poorly designed network can cause major performance problems.

All network installations are accomplished using an open system architecture concept allowing the room for potential future growth. Each and every project is implemented with the highest standard of quality, with our customers' best interest being our first priority. We have a strong workforce who has expertise and experience in various disciplines associated with ICT infrastructure.

ACCESS CONTROL SYSTEM

We provide ACS solutions having user convenience and high security, offering diverse high-level access control functions at an affordable price. The entry and exit of people and vehicles in a given area can be restricted and registered with our Access Control System solution through access points like card readers, gate barriers, turnstiles, and more.

In addition, through our T&A System, companies can also benefit from the effective time management system, preventing wage losses and improving work productivity in their organization.

HOME AUTOMATION SYSTEM

We offer design, supply, installation, testing, and commissioning of home automation solutions for residences and commercial projects. Our automation solutions are customized and innovative, meeting all requirements for ergonomics, economic efficiency, and environmental compatibility, while also adding value in terms of aesthetics and functionality.

We provide automation solutions for environment control, lighting & sound control, scene & curtain control.

IP-PBX, AUDIO/VIDEO INTERCOM

Elvicon offers advanced phone systems and communication solutions at very competitive prices. We provide solutions featuring voice messaging, audio/video conference calls, call auto-attendance, and remote working capabilities. Our industry knowledge and engineering expertise can guarantee the highest level of security for your voice and data network system investment.

Our audio video intercom products can be tailored to fit your property's value and enhance its features. It provide safety and convenience by checking visitors through video and audio without having to open the door. Once the person is identified, the door can be opened using the same monitor.

Why Choose Us?

We have been serving various clients in the Qatar market for more than 20 years and have successfully completed several projects in the field of ICT & Security systems.
